The Aqua Technics Pools story

Aqua Technics Pools have been manufacturing award-winning fiberglass pools for over 49 years. We have the best range of technologically advanced swimming pools, which are manufactured in our purpose-built production facility.

Over forty eight years on we are still a family owned and operated company. Our pools are built to stand the test of time and are distributed all over the world. Our ultimate goal is to ensure families will enjoy their swimming pool and create a lifetime of happy memories.

49 YEARS 1976–2025

International Award-Winning Designs

Aqua Technics Pools are a multi-award winning swimming pool company with 25 International Awards of Excellence from the Pool & Hot Tub Alliance (PHTA) – proof that the quality of our pools are recognized the world over.

We manufacture the very best fiberglass pool available anywhere in the world. Built to look better and last longer than any other.

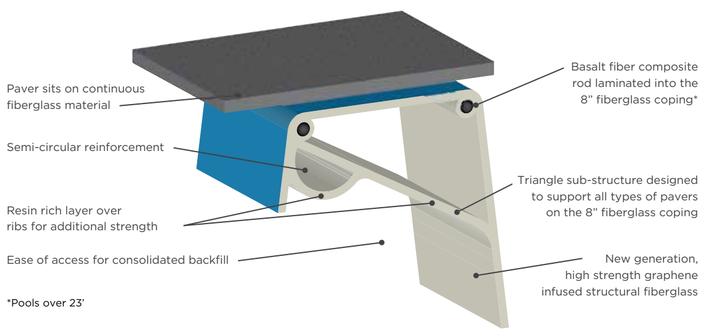
Built Stronger to Last Longer

Aqua Technics swimming pools are purpose built to withstand the test of time. Take a look beyond the surface and you'll discover a level of quality that is distinctly Aqua Technics.

Each pool is manufactured using new generation, high tensile strength, eco-friendly fiberglass producing a pool with exceptional strength. Superior design features built into our pools provide additional structural strength. A reinforcing ribbing system supports the shell walls while struts under steps and bench seats ensure they remain level with the rest of the pool.

Why we only build pools with 8" fiberglass coping

The design of the 8" wide fiberglass coping means the strength is engineered into the pool - your pool is built stronger to last longer.



*Pools over 23'

What sets us apart from the rest

Our state-of-the-art manufacturing facility includes an in-house raw materials production division. This allows us to freshly batch our raw materials on a daily basis, which is extremely important in order to produce a superior quality product.

Our pools are manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001. We are measured and tested by an authorized, independent external auditor each year. Our pools have International Code Council Accreditation – ICC-ES.

The strength and quality of our pools are backed by our Limited Lifetime Structural and Interior Surface Warranties.

Product Certification
AS NZS 1838
BMP No 520101

ICC ES PMG

Limited Lifetime Structural Warranty

Shipped all over the world

The quality and strength of our pools is the reason they have been shipped to 17 countries world-wide, many of which we have been active in for over 15 years.

We pride ourselves on having an innovative range of designs, colors and surface finishes. We have been leading the industry in product technology and development to ensure every Aqua Technics pool is superior in every way.

Palazzo

The Aqua Technics Difference

Graphene Nano Technology
Revolutionary process infusing graphene nano technology into every Aqua Technics pool. Built like no other, a Graphene Nano-Tech® pool is 30% stronger, our strongest pool ever.

Superior Surface Protection
Patented Pool ColorGuard® surface technology is like sunscreen for your pool and resists the effects of UV rays and chemicals, offering advanced color retention.

Superior Strength
8" fiberglass coping and support structures are engineered into the pool, making it independently structural. A reinforcing ribbing system supports the shell walls.

Precision Molds
New designs are built to exacting tolerances. The fiberglass coping is true, the shapes geometrically perfect and the surface finish is without peer.

Quality Assured
We are endorsed to ISO 9001 Quality System and are certified to ICC-ES, your assurance of a quality product. We are measured and tested by an authorized independent auditor.

Lifetime Warranties
The strength and quality of our pools are backed by our Limited Lifetime Structural and Interior Surface warranties, our commitment to providing extended warranties above those that are standard.

Innovative Designs
Over 50 designs to choose from including innovative features like seating ledges and bench seats.

Family Values
After 49 years we are still a family owned and operated company. Our goal is to ensure families enjoy their swimming pool and create a lifetime of fun-filled and enjoyable memories.

Ground-breaking Graphene Nano-Tech®

GRAPHENE NANO-TECH
Patented Technology
USA PATENT NUMBER
11702517

Advanced Technology in Fiberglass Pools

Graphene Nano-Tech® is a revolutionary, patented process infusing graphene nano technology in every Aqua Technics pool. Over 4 years of research and development has been carried out to incorporate graphene into the composite layers of our pools, creating a totally new construction process that is the next generation of fiberglass pool technology.

30% stronger

Graphene is 200 times stronger than steel & stronger than titanium, giving you our strongest pool ever

Increased strength & rigidity of the pool's structure

Higher flexural strength

30% lighter

Our new technology reduces weight while improving rigidity and flexural strength

Pools are stronger without being heavier

Lighter for transport & crane lifts

Higher resistance

A Graphene Nano-Tech® pool has a higher resistance to water and moisture transpiration and chemicals

Increased laminate durability

Improved corrosion barrier

Superior Pool ColorGuard® Swimming Pools

Only Aqua Technics Pools can offer you a patented surface protection system for fiberglass pools that resists the effects of ultra violet rays and chemicals. It's like sunscreen for your pool, protecting it from color loss and weathering. Incorporating a specialized dual coat system as part of the manufacturing process, two layers are merged to provide extraordinary surface protection.

With a brilliant, high gloss finish that lasts, your Pool ColorGuard® pool will maintain its beautiful appearance year after year. We dare you to compare.

The greatest advancement in fiberglass pools in over 48 years

Patented Dual Coat System - Every Layer Matters

1. Clear gelcoat – acts like sunscreen for your pool
2. Color layer - colors that last longer and act as a corrosion barrier to prevent osmosis
3. First structural layer and second chemical resistant layer - double protection
4. Graphene infused ceramic composite core
5. Graphene structural composite layer – stronger and stiffer
6. Graphene structural composite over reinforcing ribs creating increased strength and stiffness
7. Graphene infused ceramic composite outer membrane

Only specialized resins are used, no general purpose resins.

Revolutionary, patented dual coat process - two layers are merged to provide extraordinary protection.
